Barbara,

At this point, it appears as though the site tour idea, at least from our perspective, is dead at this time. I do believe FHWA went ahead with the site tour originally scheduled. Right now, a meeting in Washington between FHWA, EPA, Army Corps, and possibly WVDOT is in the early stages of being scheduled. The dates being discussed appear to be in the early November timeframe. I will let you know as soon as this meeting gets fleshed out with times and participants.
